PROJECTS

Symposium (Discussion Board) Feb. 2019 to Mar. 2019
Tech Stack: React | Redux | Node.js | Express | PostgreSQL | Stripe | Auth0
- Discussion board that gives users the ability to create categories, discussions, posts and replies, that they can directly follow.
- Completed over the course of 5 weeks, with a team of 4.
- Profile updates and views are available for users by using Node.js to query data from the PostgreSQL database.

EMPLOYMENT

Lambda School Remote
Project Manager Mar. 2019 to Current
- Lead next phase of Symposium to expand the project I began in my own Labs experience, consisting of two teams for the next five weeks.
- Track progress of a group of 8- 10 students, providing support as they navigate fast paced curriculum and execute a full project cycle.
- Assist students through the debugging process of their code, offering insight into fixes and offering additional support as needed.
- Perform daily stand-ups, code analysis, and a review of pull requests.

Stage Left Steak/Catherine Lombardi's New Brunswick, NJ
Server Apr. 2017 to Apr. 2018
- Provided excellent table side service along with captain's, sommeliers, server assistance, and staff.
- Served a high volume of customers and was entrusted with important clients and large groups.

INC Research Remote/60% Travel
Clinical Research Associate Apr. 2015 to May 2016
- Responsible for the management of designated clinical trials, including site initiation, and routine monitoring and close out visits.
- Participated in global conference calls and meetings to review progress of ongoing clinical trials.
- Analyzed and evaluated clinical data, to ensure investigator and site compliance with the study drug protocol, overall clinical objectives, and ICH Good Clinical Practice (GCP) guidelines.
